

**Hamlin Town Board Meeting
June 11, 2012**

The Hamlin Town Board held their regular scheduled meeting in the Hamlin Town Hall located at 1658 Lake Road, Hamlin, New York. The meeting was called to order at 7 pm by Supervisor Breslawski. The location of the fire exits and defibrillator were explained for those present. Everyone was invited to participate in the Pledge of Allegiance and a moment of silence for the deceased residents of Hamlin.

Present: Councilperson Jason Baxter, Councilperson Craig Goodrich, Councilperson Martin Maier, Councilperson David Rose, and Supervisor Thomas Breslawski. Also present: Attorney Ken Licht; Acting Building Inspector Chad Fabry; Recreation Director Patty Jo Groenendaal; Assessor Don Wells; Conservation Board Members Ed Evans and Nick Kramer; Library Director Katherine Hughes Dennett; Town Historian Bob Kruger; Residents Eric Peters, Ed Lenz and Chuck Weitz.

RESOLUTION OF OPPOSITION: IJC PLAN BV7

Resolution # 201 Unanimously approved.

RESOLUTION OF OPPOSITION

WHEREAS, the shoreline represents ten percent of the total residential structures in the Town of Hamlin, and \$62,489,400 of the Town's total assessed value. Should a significant event eliminate those properties, the Town would experience a tremendous reduction of tax revenue, and,

WHEREAS, there is no sewer system on the shoreline in Hamlin and all residents have septic systems, a significant event could cause great environmental damage to the Lake and surrounding wetlands by contaminating them with raw sewage, and,

WHEREAS, the Town of Hamlin maintains over three and one half miles of roads North of the State Parkway that could be damaged by flooding, which would impose a significant impact on the Town's budget, as well as to the State's budget at Hamlin Beach State Park, and

WHEREAS, members of the Conservation Board have scrutinized the list of LWRP Policies and, by consensus, strongly feel the following policies would be adversely affected by the IJC Proposal: 2A,5A,7A,7B,11,12,13,14, 18,25,33,33A, and 44.

THEREFORE BE IT RESOLVED that the Town of Hamlin, on behalf of all shoreline residents and taxpayers, opposes any plan, including, but not limited to Plan BV7, that changes the status quo with regard to the level of Lake Ontario.

PUBLIC FORUM

Supervisor Breslawski reminded all those present of the rules of Public Forum and opened the Public Forum.

Eric Peters, Brookedge Drive – The Building Department needs to have a form that is easily accessible to the public for frequently accessed improvements such as additions and decks which explains exactly

what is needed to obtain a specific permit. I have heard from builders that have had to come back a second time for plans that didn't need to go back over and they spent money on something that a resign may have been sufficient. I work for the Water Authority on the development end and this is the lowest level of development we have seen in years. We need to try to promote development in this town and do anything we can to make it easier for the public to be able to walk in and get whatever they need. It would be helpful to have a form available to people that says you need "this and that" in order to go before "this Board" to obtain a permit, reassessment, etc. and create a positive experience out of it. This would avoid the frustration of three or four trips, when one should be sufficient. I had this argument with the Supervisor 15 years ago when I was working here.

The second thing I want to mention is that you need to understand that your actions affect other people. Without getting into specifics, I was called into an office to explain an action that happened from one of the Board members. If I need to go to my boss and explain what is going on in this town, that's a problem. Conduct ourselves with some decorum and please remember that all your actions affect someone at some point. I don't need to be put in that position of defending something that I know nothing about.

DISCUSSION:

- 1. Lakeshore Sewer District** – To move the Lakeshore Sewer District forward, the application will cost about \$3,600 for them to prepare. An environmental report will be an additional \$3,700 and a revised engineering report of \$400, brings the total to about \$7,700. This includes all our lakeshore and Hamlin Beach. J.P. thinks that because of it being environmentally critical and partnering with the parks, that there is a chance that we could have a low interest loan. Costs would be about \$1,000 per year. We will hold a Public Information Meeting.

PUBLIC INFORMATION MEETING TO BE HELD FOR LAKESHORE SEWER DISTRICT

Resolution # 224 Motion was made by Councilperson Rose, seconded by Councilperson Goodrich, requesting Town Board resolution to hold a Public Informational Meeting with a date to be determined by the Town Supervisor after determining availability of St. John's facility.

Polled Votes: Councilperson Baxter aye, Councilperson Goodrich aye, Councilperson Maier aye, Councilperson Rose aye, Supervisor Breslawski aye. Motion carried.

- 2. Building Inspector, possible consolidation with Clarkson** – Supervisor Breslawski met with Paul Kimball and Chad Fabry. While the contract is being worked on, we have appointed Chad as our Acting Building Inspector and we will be billed by Clarkson for that. His schedule will be: Mon 12–8 pm; Tues, Wed & Thurs 8 am–Noon. He will be in Clarkson on: Mon 8 am–Noon; Tues 12–8 pm; Wed & Thurs 12–4 pm.

He will be available for his Fire Marshal duties or anything that comes up as an emergency or a very timely inspection for either town during those timeframes. Chad stated that he hopes to get everything on-line and would be available to both Hamlin and Clarkson full-time.

3. **Building Inspector vehicle lease** – It is a 38 month lease and we can't get rid of the vehicle until we have made 12 payments of \$309.87, which will not be until November of this year. It will require us to pay \$8,056.62, plus an early termination charge that would be determined at that point. If we want to buy out of that lease, we can pay \$22,502.04, and resell the vehicle as surplus equipment. Supervisor Breslawski will research the options more thoroughly with the Town Attorney.
4. **In-house training opportunity, DEC Forester Mark Gooding** – This training is on the Emerald Ash Borer, being conducted by DEC Forester and would be at no cost to the town. Nick Cramer questioned if it would count as training or just considered an educational session for the Support Boards. He stated that it is a chance for someone from the County Forester to come out and talk to members of the Support Boards about issues concerning the Emerald Ash. We are in the quarantine section of New York State, and it hasn't been found near Hamlin yet. If the situation arises, people are going to be asking what to do, how to treat, who to call, etc, and Mark Gooding can answer some of those questions. It was decided to schedule a training session that could count toward the Support Board's required hours.

IN-HOUSE TRAINING SESSION BY DEC FORESTER MARK GOODING TO BE SCHEDULED

Resolution # 225 Motion was made by Councilperson Maier, seconded by Councilperson Goodrich, requesting Town Board resolution to schedule an in-house training session by DEC Forester Mark Gooding at a date to be determined.

Polled Votes: Councilperson Baxter aye, Councilperson Goodrich aye, Councilperson Maier aye, Councilperson Rose aye, Supervisor Breslawski aye. Motion carried.

REPORTS:

Councilperson Baxter reported on the following:

- Library – New cards continue to be up from last year. People count, fines, and basic overall revenue are the same as last year.
- Recreation – Participation in their programs is up. There will not be a Commissioner's Meeting tomorrow; the next meeting will be in July and the time is changed to 7:30.

Councilperson Goodrich reported on the following:

- Dog Warden – I haven't heard anything because of the change in leadership.
- Zoning Board – They are asking for our support in not changing and going to a non-compliant lot, which they have never done yet and they don't want to start. Whoever drew their plans up should have looked at, adhered to and respected our regulations. They are asking us to approve a substandard lot.

Councilperson Rose reported on the following:

- Senior Citizens – Nothing to report.
- Fire District – Everything is doing well with the fire district at this time. They are progressing toward the consolidation.

Councilperson Maier reported on the following:

- Fire Districts – Everything with the Morton and Walker Fire Districts are okay. I attended the Consolidation Meeting last Wednesday. They have approximately 20 subcommittees doing different things. They are coming along very well now that they have Jerry Clement as their Administrative Director. The Treasurers from all three districts got together and have the accounting system figured out.
- Conservation Board – The big thing is the Emerald Ash Borer training opportunity that Nick talked about.

Building Inspector Chad Fabry reported on the following:

- There is quite a bit of new building going on over at Hidden Creek Park. They put in about 11 or 12 units in the last month. The higher end ones are selling like crazy.
- I can send detailed monthly reports by email.

Assessor Don Wells reported on the following:

- We had one resident come in for Grievance Day. The Board did lower the assessment, but not to what the resident was asking for. There could still be small claims.
- K&K may still file a grievance; they have until the end of July to pursue that.
- I want to thank the Board for their selection on our new Assessment Clerk. If the first 2 weeks are any indication, I think she is going to do a good job and hopefully be with us for a long time.

Conservation Board Ed Evans reported on the following:

- I would like to thank the Town Board for last Tuesday. The State Park System from Albany and Letchworth were very impressed with the interest from the Town Board in the project. They told us that in the other towns that have State Parks in them, it is very rare to get the cooperation that they get here.
- Interest in our CCC Camp continues to grow. We had a tour there today and Wednesday we have a bus of seniors coming in from Penfield. In a couple of weeks the Red Hat Society will be touring the sight. Fifty elementary students in Kendall will be getting a presentation on the CCC/POW on July 3rd. It just continues to build. Our pen pal POW, who was getting more trusting of us, sent us 3 photographs that really dress up the presentation. One picture was at age 13, one in uniform a month before he was captured in North Africa, and the third photo was taken of him 8 months after he left the Hamlin Camp and went to the Oakfield Camp. The email was sent by his grandson who has been trying to get this guy to come to Hamlin to look at what we are doing. He is trying to set up a Skype meeting. It's a neat project and it's putting Hamlin on the map.

Librarian Kay Hughes-Dennett reported on the following:

- The last week in June we start the summer reading in Hamlin for ages 2 through adult. We have a young children's program, a children's program, a teen program, and an adult program. There will be at least two things going on every week. Some will be geared more toward the older kids and some for younger. It ends the second week in August. I am looking forward to a busy summer.
- Sue Evans and I looked at the Construction Grants Webinar for the Libraries. Hopefully O'Connell's is starting on our grant.
- Laura Partyka said the thermometer sign will be up in two weeks at the site.

Town Historian Bob Kruger reported on the following:

- We had a booth at the Wheel Fest this year and had a display on Duffy Motts. I met with a few people that worked at Duffy Motts through the years. I answered some questions, sold a history book, and handed out a few forms for Heritage Awards. It went pretty well.
- Ruth Rayburn passed away and her family gave us 3 or 4 great big boxes of material.

Recreation Director Patty Jo Groenendaal reported on the following:

- At the Wheel Fest our Chariot Races went quite well. We got a lot of feedback on how to make some changes. I was very impressed with the crowd that each team brought. They had signs and everything; it was great.
- We are very busy. It seems like it has not slowed down and now we are starting into the summer registrations, which have already skyrocketed. So that's just the beginning of an indication at how crazy this year is going to be. Last year at this point, we brought in \$290, this year it's over \$2,000 for summer already.
- The Commissioner's Meeting tomorrow has been canceled.

Supervisor Breslawski reported on the following:

- We received communication that the bridge over Moorman Creek will be replaced beginning in early June. It is supposed to be a five month repair.
- I would like to add a Veteran Services tab to the Hamlin website to include assessor's information on exemptions, contact information, downloads, and other opportunities at the Federal, County and State level.
- I had a great time at the Wheel Fest and I want to thank the Town Clerk and all the volunteers. It was a beautiful day. There was a lot of parking with the extra parking lot out back. It helped to keep the cars off of Apple Hollow, except some that were down there for a private party. The fireworks were beautiful. A very successful event for everyone.

ADJOURNMENT

A motion was made by Councilperson Maier, seconded by Councilperson Goodrich to adjourn the meeting at 8:15 PM as all business has been concluded.

Polled Votes: Councilperson Baxter aye, Councilperson Goodrich aye, Councilperson Maier aye, Councilperson Rose aye, Supervisor Breslawski aye. Motion carried.

Respectfully submitted,

Kathi A. Rickman, MMC
Hamlin Town Clerk
