

# Town of Hamlin Brush Pick Up Guidelines

Please remember the following when placing brush, stumps, and bagged leaves by the roadside for pickup:

- ❖ Have all brush, stumps, and bagged leaves out to the curb by 7:00am Monday the week pickup begins.
- ❖ Leaves in plastic bags cannot and will not be picked up. Plastic bags cannot be recycled and will not compost in our mulch pile. All leaves must be bagged in biodegradable bags.
- ❖ DO NOT place brush, stumps, or leaves on anyone's property except for your own.
- ❖ DO NOT place brush pile, stumps, or bagged leaves where they will be a sight distance problem for you, your neighbors, or other traffic.
- ❖ Stack brush parallel with the road.
- ❖ DO NOT place brush, stumps, or bagged leaves under utility wires where our machine cannot reach, if possible.
- ❖ Brush and leaves will not be picked up if they are in barrels, trash cans or containers.
- ❖ DO NOT place brush piles, stumps, or bagged leaves in the roadway or on the road shoulder.
- ❖ Place stumps separate from brush pile. They will be picked up separately.
- ❖ All stumps must be 90% free of all dirt and stones and no more than 6" in diameter.
- ❖ Contractors are not permitted to bring in any stumps from another location. They will not be picked up.
- ❖ DO NOT include brush, stumps, or bagged leaves from "lot clearing" for any construction activity. They will not be picked up.
- ❖ DO NOT place ANY other debris with your brush pile, stumps or in your leaf bags. (Ex. Metal, concrete, construction materials, wood with nails, junk, "spring cleanup items", etc.) You must contact your personal waste hauler for all items except concrete.
- ❖ The Town does not pick up grass clippings.
